

R.I.P Fleas Extra™

Fleas are a major irritation in the home biting you, your family and your pets and, in modern homes with central heating, the season now extends all year round. RIP Fleas Extra is a **Reliable, Instant, Protecting** and complete solution to rid your home of these parasites.

R.I.P. Fleas Extra also kills house dust mites, which can be a common cause of allergies in people and pets.

R.I.P. Fleas Extra has a unique **TRIPLE ACTION FORMULA**.

Permethrin gives	Rapid and long lasting kill of fleas ticks and mites
Tetramethrin gives	Instant Knock Down of adult fleas
Methoprene gives	Persistent year-long control by killing eggs and larvae.

Active ingredients:

Permethrin 0.5% w/w, tetramethrin 0.10% w/w, S-methoprene 0.05% w/w

Directions for use:

For optimum performance we recommend vacuuming carpeted surfaces immediately prior to application as this opens the carpet pile and allows the spray to penetrate. Similarly, vacuum and treat under large items of furniture, such as sofas, to target favoured hiding places of immature fleas. Remove all pets, including birds and fish, from the area to be treated.

Remove cap. Invert can. Hold can approximately 30cm away from the surface to be treated and apply spray. Use 4 seconds of spray to cover 1 square metre of surface, spraying in a criss-cross pattern to ensure uniform delivery. Remember to spray in cracks and crevices around the room (e.g. skirting boards and gaps in exposed floorboards). It is advisable to continue to vacuum regularly after spraying.

STATUTORY CONDITIONS RELATING TO USE

- FOR USE ONLY AS AN INSECTICIDE.
- A 4 SECOND SPRAY WILL COVER ONE SQUARE METRE.
- SPRAY FROM A DISTANCE OF 30cm (12 INCHES) ONTO SURFACES UPON WHICH INSECTS WALK, AND INTO CRACKS AND CREVICES AND INSECT HIDEAWAYS.
- RE-SPRAY AS NECESSARY.
- Do not breathe spray mist.
- DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES.
